## **Testimonials**

"Kerry combines an experienced and confident tone with an authoritative delivery which makes him, in my mind, one of the best I've ever worked with. He particularly impressed with his range of character voices. Completely unafraid to try anything he's asked, I'd recommend him every time.

EJ, Creative Director"

“Kerry delivers high-quality files that need no further work - essential in fast-paced radio ad turnover. He is up there with the best and I cannot recommend him highly enough.

SG, Radio Jingles”

“Kerry offers a combination of performing skills and experience that few voice artists possess and we wouldn't hesitate to recommend him to anyone looking for an outstanding service.

MC”

“His recordings are always of exceptional quality and read exactly to our expectations, saving us time and resource.

NATO”

“Kerry turned around a complex promo for a major German company in very quick time - but the result was still completely professional and immediately usable by the client, who was grateful for the work so urgently completed. We would use Kerry again at any time and we highly recommend him.

FF Films”

“We required a voiceover to provide multiple voice input to our twin-genre single-player game Armoured Onslaught, and Kerry did an amazing job! Excellent communication and quick turnaround, we would recommend him to everyone! We hope to work with Kerry again in the future.

JU, Head of Production”

“I've listened to a few audio stories and different narrators, but in my opinion, allow me to say that Kerry absolutely stands out from the crowd. His acting is also eye widening. Kerry's characterisation of Mountjoy is precisely as I hear him in my mind. But it's Gerald that really works for the story - Kerry absolutely brought him to life better than I did. Thank you - I can't believe how alive the story is now.
