## European Multilingual voiceover talent

France, CET timezone

Dutch native voiceover talent, active as a full-time professional since 2011.

### **Voice type:**

International sound.

Mezzo-soprano, 30-60 range.

Assured, warm, soothing, knowledgeable, relatable, conversational.

### **Languages:**

1. **Dutch** (native, Netherlands)

2. **English**, European or undefinable accent.

but also:

3. **French**, with a very light, non-native accent

4. **German**, and

5. **Flemish**, both very light Dutch accented, for on-hold messages or other multilingual projects needing the same voice.

My neutral accent in English is what I get most booked for, since it is clear and well adapted for a global audience.

It appeals to large corporations with broad and international target markets.

### **Happy clients include:**

Apple, Nike, Google (official customer service voice for the Netherlands), Netflix, Thierry Mugler, Honeywell, Fitbit, GoDaddy, IKEA, Clarins, Mastercard, Bouygues, Geodis, Luis Vuitton, FitBit, Hewlett Packard, Lacoste, GDF-Suez, Escada, L'Oréal, AbbVie, Intel, Cognizant, Johnson & Johnson, ABN/AMRO, Accenture, Tableau software, TripAdvisor, the European Commission, Air France, Orange, Shell, BMW, LEGO, Siemens, Michael Page, AECOM, Easy on Hold, Leifheit, RICOH, Spie, AXA, Nissan, Bristol Meyers Squibb, Husqvarna, BNP Paribas, Luxe.TV...
