

Waceke

Voice over Actor

Quality voiceover work will motivate, activate, educate, engage and inspire the listening audience. These are the core principles underpinning Waceke's voice over services. Her voice has been described as an International / Global Voice with a wide range from from serious and straightforward to lighthearted and fun; soft and gentle, to enthusiastic and energetic.

Waceke's strong and diverse background as an African American (Kenyan-American) female voice talent is a true vehicle for today's unique global demand for authentic voice for each project.

While Waceke is based in Raleigh-Durham, North Carolina, her professional studio allows her to connect with clients worldwide via Source Connect, etc., to deliver consistent voice over work with enthusiasm, honesty and compassion. Simply put: Loving people. Loving stories.
