Performed on seven studio albums & multiple singles. Worldwide vocalist collaborations with producers: Fused- UK, Screamershock-UK, Wrekit88- UK, and Cobbler- UK, Wilson Serrano- Denmark, D.J. SkyJump - Italy, and StarMadman - USA.

SKILLS & INTERESTS

I am fluent in English & Spanish (neutral Colombian). Located in San Diego, I am available to travel to your preferred studio for in-person direction for VO, PCAP, Facial Scan, and MOCAP. I enjoy delving into character scripts, taking direction from professionals and I work easily with all people! I am also proficient at recording myself, directing myself, and editing audio. With my professional gear and an acoustically treated vocal booth, I can deliver broadcast-quality audio assets. My main microphone is a Neumann TLM-103 going into a Universal Audio 4-710d Preamp. My Interface is a Universal Audio Apollo Twin MKII, and my main DAWs are Ableton Live 11 Suite & Pro Tools on a 2018 iMac. Finally, I polish the audio with Izotope RX 9. For remote direction, I have paid Source Connect Standard with an ISDN Bridge. My personal interests are beach life: sailing, kayaking, rollerblading, biking, and yoga.
